

## Mission

Our mission is to provide specialised hospice care in partnership with the community for people of all ages who are dying.

## Vision

Our vision is to provide home-like hospice care for people who are dying and their family and friends. This holistic care is based on a team approach, best clinical practice and excellence through continuing research and education.

## What is hospice care?

Hospice care is care provided for people of all ages who are living with a terminal illness.

This type of care can be provided either in your own home, in a small, home-like community support facility or in a purpose-built hospice building. The Sunshine Coast Community Hospice will initially set up hospice support houses across the coast.

These houses will be adapted and equipped to provide hospice support services. These will include:

-  Respite care
-  Outreach and in-house support services
-  Grief and bereavement counselling services and support groups
-  Carer support
-  Complimentary therapies and pampering
-  Volunteer support
-  Spiritual support
-  Equipment

We will provide high quality hospice support services in partnership with other hospice, palliative care and community nursing services on the coast.
